Section 2: Benefits

Work smarter in your essential business apps. [Asset 2 from Zip file](#)

Enable teams to easily create PDFs and send them for e-signature directly from Microsoft 365. Convert PDFs to editable Word, Excel, PowerPoint, or RTF files. Create, export, organize, and protect PDFs in Microsoft Teams. And access, edit, and store files in Microsoft OneDrive, Google Drive, Box, or Dropbox while working in Acrobat Pro on desktop or mobile.

Get unmatched security. [Asset 3 from Zip file](#)

With app security, a world-class cloud infrastructure, and content controls like encryption, certification, and redaction, you can rest easy knowing you're covered by the best PDF security, reliability, and accessibility in the industry. Plus, help mitigate PDF-based attacks with built-in defenses and enterprise-grade security techniques, such as sandboxing, leak protection, and code sanitation.

Add e-signatures to your digital document workflows. [Asset 4 from Zip file](#)

Help your organization accelerate business workflows by signing and collecting unlimited e-signatures, tracking approvals in real time, requesting trusted e-signatures from multiple signers on one agreement, creating web forms to collect e-signatures, and accepting payments with Braintree (where available).

Simplify license management, purchasing, and administration. [Asset 5 from Zip file](#)

Assign, reassign, remove, and track licenses in just a few clicks with the web-based Adobe Admin Console, and add new licenses whenever you need them. Consolidate all your Adobe subscriptions in one VIP agreement, and track all your Adobe licenses in one place.

Section 3: Adobe + Microsoft

Experience powerful integration between Acrobat Pro and Microsoft applications.

Acrobat Pro and Acrobat Sign integrate seamlessly with Microsoft 365, giving your teams a better way to work. Now they can create, edit, and sign PDFs within the Microsoft apps they use every day — including Word, Teams, Outlook, and more.
